

Hello all Camera Club members

## Last Meeting

19<sup>th</sup> July at Kerikeri

John Perkins did a very thorough job at critiquing our work. He gave us insightful feedback. We looked at what worked and what didn't. Suggestions for alternatives were looked at. This generated good discussion. *Thanks John, that is a real skill being able to do that so well.*

John had meant to be talking to us on 'being a photographer in London' and showing us some of his work, but, due to circumstance, this was not possible. On reflection we would not have had time to do this anyway. We will look forward to this in the future.
